

Use Uniplate's Economy Standard Aluminium Attachment Frame

Number plates must be permanently fixed to the vehicle body according to the "LAW" effective from 1st January 2009

Features

- Flexible Aluminium frame to suit curved bumpers such as "BMW" and "Mercedes Benz"
- Constructed entirely from Aluminium 1.5mm in thickness which makes the frame very durable, strong and rustproof
- Hole patterns to suit 90% of the vehicles, for easy fitment
- The frame is supplied with 4 plastic cups to protect the body work from being scratched and to prevent the number plate from rattling
- The frame has 4 rivet holes to suit the Supreme Embossed Aluminium number plate for easy fitment
- Each frame is supplied with two Unilock Plugs, two 6mm bolts, 2 washers and four peeled rivets.

Unilock Plug for the Uniplate Standard Aluminium Attachment Frame Supreme Embossed Non-paint Aluminium Number Plate

Government Gazette No. 31557 dated 3 November 2008

Amendment of regulation 35 of the Regulations.

7. Regulation 35 of the Regulations is hereby amended by the substitution for the proviso clause after subregulation (7), (f) of the following proviso clause:

Provided that no person shall operate on a public road a motor vehicle first registered on or after 1 January 2009, unless the number plate fixed to such motor vehicle is affixed within 20 millimetres from the edge by means of 4 millimetres rivets or 4 millimetres one-way self tapping screws either directly onto the motor vehicle or an integral part thereof or onto an intermediate metal reinforced holding bracket which is attached to the motor vehicle in such a way that it cannot be removed while the number plate is affixed to it in the aforesaid manner.
